

Weather permitting; the Mosquito Control Section is planning the following insecticide application during daylight hours on **Wednesday, September 2, 2009 and Thursday, September 3, 2009.**

Application of Altosid 20% (Methoprene) will take place with a helicopter to control mosquito larvae in the following areas:

In Lewes and near Slaughter Beach, Bethany, and Fenwick.

All insecticides to be used are registered with the USEPA for mosquito control and will be applied according to USEPA approved label instructions. The USEPA has determined that the insecticides to be used do not pose unreasonable risks to human health, wildlife or the environment.
